2022 IEEE PES T&D CONFERENCE AND EXPOSITION

ATTENDANCE REQUEST

REGISTRATION OPEN DATES: IEEE PES MEMBERS **1/17/22** | Non-Members **1/31/22**

Employee Name _____ Department _____

Event Cost _____

Dates of Absence / From _____ To _____

I would like to experience the 2022 IEEE PES T&D Conference and Exposition because it will:

- Highlight future technologies in the utility industry such as system resiliency, cyber and physical security, energy storage systems, smart grid technologies and many more.
- Lead to a greater understanding and knowledge of these new advancements will contribute to both my professional development and our company.
- Bring together some of the world's largest technology and solution providers in the power industry with opportunities for face-to-face discussion with industry experts and leaders on topics relevant and important to our local industry.
- Feature in-depth Super Sessions and Tutorials on related topics specific to the transmission and distribution industry.

Action item upon my return:

I will seek opportunities to share information and insights gathered during the conference, which will add value to others on my team.
