ACCELERATE THE GRID OF TOMORROW

For conference registration and hotel reservations, visit ieee-t-d.org.
I’m thrilled to extend an invitation for you to join us in Anaheim, California, for the 2024 IEEE PES T&D Conference and Exposition. This marks a significant milestone, as it’s the first time in nearly 30 years that the event will be held on the West Coast.

Anaheim is a city built on imagination, a place where dreams come true. Our community has our own dreams of coming together to modernize the grid of tomorrow and deliver a sustainable future. Join us this May as we push ahead and explore the latest insights and innovations needed to tackle urgent global challenges, including expanding electrification, managing aging infrastructure, the impact of extreme weather events, cyber threats, implementation of new policies, and more.

There’s so much I’m excited for you to experience, particularly our world-class technical programming featuring an exceptional lineup of Super Sessions focused on the industry’s hottest topics, Technical Tours providing a first-hand look at industry-leading sites, Tutorials offering in-depth examinations of critical subjects, and so much more. Not to mention, this year’s event boasts the largest IEEE PES T&D show floor ever with exhibitors from around the world!

I am confident that our 2024 event will accelerate the industry forward and I’d be delighted for you to be a part of its success.

Joe Svachula
IEEE PES North America, T&D Director
OFFICERS AND ORGANIZING COMMITTEE

2024 IEEE PES OFFICERS
Shay Bahramirad  IEEE PES President (LUMA Energy)
C.Y. Chung  IEEE PES President-Elect (The Hong Kong Polytechnic University)
Mazanna Armstrong  IEEE PES Secretary (British Columbia Hydra)
Juan Carlos Montero  IEEE PES Treasurer (ICE Costa Rica)

2024 IEEE PES T&D STEERING COMMITTEE
Carl Segneri  Steering Committee Chair (Quanta Technology)
Joe Svachula  T&D Director (Commonwealth Edison)
Jackie Peer  IEEE PES Vice President, Meetings & Conferences (Omicron Electronics)
Alex Flueck  Academic Representative (Illinois Institute of Technology)
Keven Geraghty  Utility Representative (San Diego Gas & Electric)
John Mueller  Exhibitor Representative (G&W Electric)
Barbara Powell  Consultant - Past Meeting Planner (Kenworthy Management)

2024 IEEE PES T&D LOCAL ORGANIZING COMMITTEE
Erik Takayesu  LOC Chair (Retired)
Analene Arellano  Admin/Assistant (Southern California Edison / SCE)
Clarissa Fandino  LOC Support (SCE)
Jad Farah  Treasurer (SCE)
Tinamarie Loza  Treasurer (SCE)
John McDaniel  Technical Program Chair (National Grid)
Kate Cummings  Technical Program Co-Chair (G&W Electric)
Manuel Avendano  Technical Program Committee (SCE)
Abder Elandaloussi  Technical Program Committee (SCE)
Sahar Hendabadi  Technical Program Committee (AECOM)
Kaveh Aflaki  Technical Program Committee (IEMS Solutions)
Editha Toms  Activities Chair (SCE)
Laura Koizumi  Activities Committee (SCE)
Reba Liggett  Volunteer Committee Chair (SCE)
Ana Hafiz  Technical Tours Chair (SCE)
Joseph Wei  Technical Tours Committee (City of Anaheim)
Gianela Gozalo  Student Activities Chair (SCE)
Wayne Bishop  Past IEEE PES VP, Meetings & Conferences (Quanta Technologies)
IEEE PES STAFF
Timothy Licitra  PES Executive Director
Dan Toland  Director Society Operations
Maria Proetto  Sr. Manager PES Publications
Jenny Brown  Marketing Project Manager
LaToya Gourdine  Sr. Administrator - PES Education

2024 IEEE PES T&D OPERATIONS TEAM
Shawn Boon  Exhibit Sales & Management
Lukrecija Lelong  Project Management
Gail Sparks-Riegel  Housing, Registration & Logistics
Tyler Day  Marketing
Rachel Schrichte  Marketing
Gary Rehor  Finance Consultant

2024 SUPPORTERS
The 2024 IEEE PES T&D Conference and Exposition would like to thank and recognize the following companies that have generously supported portions of this year’s conference.

[List of company logos]
## Schedule at a Glance

### Sunday, 5 May

- **12:00 PM – 5:00 PM**: Onsite T&D Registration Opens

### Monday, 6 May

- **7:00 AM – 5:00 PM**: Registration Open
- **8:00 AM – 5:00 PM**: Tutorials, IEEE PES Plain Talk About the Electric Power Industry
- **9:00 AM – 2:30 PM**: Technical Tours
- **6:00 PM – 9:00 PM**: Conference Opening Reception

### Tuesday, 7 May

- **7:00 AM – 5:00 PM**: Registration Open
- **8:00 AM – 5:00 PM**: IEEE PES Plain Talk About the Electric Power Industry
- **8:00 AM – 8:30 AM**: Opening Session
- **8:30 AM – 9:45 AM**: **Super Session 01**: Mind the Gap – Policy and Regulation for Accelerating the Grid of Tomorrow
- **10:00 AM – 5:00 PM**: Exhibits Open / Innovation Stage, Renewable Energy Stage, and Grid Edge Stage
- **12:00 PM – 1:00 PM**: Conference Luncheon in the Exhibit Hall
- **1:00 PM – 5:00 PM**: Technical Panel Sessions
WEDNESDAY, 8 MAY

8:00 AM – 5:00 PM  IEEE PES Plain Talk About the Electric Power Industry
8:00 AM – 9:00 AM  Super Session 02: Transmission Buildout – The Solutions We Have and the Breakthroughs We Need
9:00 AM – 10:00 AM Super Session 03: Meeting the Energy Needs of Tomorrow – Integrated Planning for the Customers, Distributed Energy Resources, and the Grid
9:00 AM – 4:00 PM  Technical Tours
10:00 AM – 6:00 PM  Exhibits Open / Innovation Stages, Renewable Energy Stage, and Grid Edge Stage
12:00 PM – 1:00 PM  Conference Luncheon in the Exhibit Hall
1:00 PM – 5:00 PM  Technical Panel Sessions
4:30 PM – 6:00 PM  Networking Reception in the Exhibit Hall
5:00 PM – 7:00 PM  Poster Session Reception / Student Poster Contest

THURSDAY, 9 MAY

7:00 AM – 2:00 PM  Registration Open
8:00 AM – 9:00 AM  Super Session 04: Powering Progress: Overcoming Obstacles towards the Energy Transition
9:00 AM – 10:00 AM Super Session 05: Spark of Innovation: Exploring Decarbonization from Electrification
10:00 AM – 3:00 PM  Exhibits Open / Innovation Stages, Renewable Energy Stage, and Grid Edge Stage
12:00 PM – 1:00 PM  Conference Luncheon in the Exhibit Hall
1:00 PM – 3:00 PM  Technical Panel Sessions
3:00 PM – 4:00 PM  Super Session 06: Climate Change Impacts on the Grid of Tomorrow
4:00 PM – 5:00 PM  Conference Closing Session – Student Poster Contest Recipients

HOST UTILITY
TECHNICAL PROGRAM
Monday, 6 May – Thursday, 9 May
The 2024 Technical Program will explore how the industry can take advantage of the new funding and technology that is now available to accelerate the modernization of the grid and make sustainable energy a reality. Featuring conversations around the electrification of infrastructure, the integration and operation of renewables, recent climate disruptions, along with a multitude of additional trends impacting the industry today, this is where you need to be to unlock the future grid. You can even capture Professional Development Hours (PDH) by attending Technical Sessions, with Continuing Education Units (CEU) available for Tutorials and IEEE PES Plain Talk courses. Details on how to obtain these certificates will be provided at the conference.

CONFERENCE OPENING RECEPTION
Monday, 6 May | 6:00 PM – 9:00 PM
Anaheim is known as the place where dreams come true. The power and energy community has dreams of our own. Join us to celebrate these dreams and the return of IEEE PES T&D to the west coast for the first time in nearly 30 years as we gather at the Disneyland Hotel on Monday 6 May from 6:00 PM to 9:00 PM. Savor tastes of Southern California, network with industry pros, and come together to imagine the new future of the industry.

EXHIBIT HALL
Tuesday, 7 May – Thursday, 9 May
Visit our largest show floor ever featuring over 800 exhibitors representing more than 30 countries. Offering the widest display of next-gen solutions, there’s simply no better place to explore the newest technologies, products, and services covering every aspect of transmission and distribution. Also visit the Grid Edge Pavilion and three show floor stages providing an extension of the technical program.

CONFERENCE LUNCHES
Tuesday, 7 May – Thursday, 9 May
12:00 PM – 1:00 PM
Enjoy lunch served to you in the exhibit hall while exploring real-world applications and the emerging technology and product solutions key to our industry’s future success.

NETWORKING RECEPTION
Wednesday, 8 May | 4:30 PM – 6:00 PM
Engage and mingle with leading product specialists, experts, and industry leaders over hors d’oeuvres and beverages during the Networking Reception in the exhibit hall.

LET’S CONNECT
Follow us @IEEETandD for special announcements and show highlights
POSTER SESSION AND RECEPTION / STUDENT POSTER CONTEST

Wednesday, 8 May | 5:00 PM – 7:00 PM

The Poster Session and Reception provides a relaxed environment for registered conference attendees to enjoy hors d’oeuvres and beverages while viewing more than 100 accepted papers in poster format. Here you’ll have the opportunity to speak with the authors and even tour competing papers from the Student Poster Contest.

CLOSING SESSION

Thursday, 9 May | 4:00 PM – 5:00 PM

Join us as we thank the Anaheim team for putting together a great show and welcome the 2026 T&D Chicago Local Organizing Committee.

COLLEGIATE AND YOUNG PROFESSIONAL PROGRAM

Offering an exciting and comprehensive schedule of student and young professional sessions and activities, the Collegiate Program is designed to help new talent launch successful careers in the power and energy industry. For a complete schedule of student and young professional activities, visit ieeet-d.org/student.
**GRID EDGE PAVILION & GRID EDGE TECHNOLOGIES STAGE**

**Tuesday, 7 May – Thursday, 9 May**

The Grid Edge Pavilion will be a dedicated area on the show floor featuring a variety of case study exhibits showcasing effective collaboration needed to improve efficiencies at the grid edge. Here you can access the latest in new technologies and real-world applications meant to promote best practices at the edge.

The Grid Edge Technologies Stage located within the pavilion promises to be a captivating forum for industry professionals and researchers alike. This stage is dedicated to speakers and panelists exploring the cutting-edge advancements and innovative solutions at the intersection of power systems and edge technologies. Through keynotes and panels on this stage, we will explore critical topics impacting the grid edge, including DERs, connected utilities and infrastructure, policies, e-mobility and charging infrastructure, smart cities, cyber security, and more as well as a glance into the IEEE-PES Grid Edge Technologies Conference and Exposition that PES runs every other year.

**RENEWABLE ENERGY STAGE (NEW!)**

**Tuesday, 7 May – Thursday, 9 May**

The Renewable Energy Stage at the IEEE PES T&D Conference in 2024 is set to be a vibrant platform for exploring the latest developments and advancements in the field of renewable energy. This stage aims to showcase the transformative potential of renewable energy sources and their integration into the existing power grid. You can look forward to engaging sessions featuring renowned experts, industry leaders, and researchers who will share their insights and experiences in developing, deploying, managing, and optimizing renewable energy solutions. With the pressing need for clean energy alternatives, the IEEE PES T&D conference aims to propel the renewable energy industry forward and contribute to the global transition toward a greener and more sustainable future.

**INNOVATION STAGE**

**Tuesday, 7 May – Thursday, 9 May**

IEEE PES T&D is the place to go for a wide breadth of new solutions that will deliver the promise of a reliable, safe, and affordable energy to accelerate the grid of tomorrow. Come engage with industry professionals and companies while they share their newest innovations, insights, best practices, and practical applications. The Innovation Stage provides a unique forum to:

- Debut state-of-the-art technologies
- Discuss practical new product applications
- Engage with speakers offering insights into emerging trends and sharing valuable best practices
JOIN US AT BOOTH #4651 TO SEE HOW PATHFINDER CAN TRANSFORM YOUR APPROACH TO GRID MANAGEMENT.

DISCOVER THE FUTURE OF GRID MANAGEMENT WITH PATHFINDER™

EMBRACE OBJECTIVE, DATA-DRIVEN GRID MANAGEMENT SOLUTIONS AND ADVANCE YOUR POWER INFRASTRUCTURE INVESTMENTS WITH PATHFINDER, ULTEIG’S BIAS-FREE DECISION ENGINE.

PRIORITIZE LARGE-SCALE PROJECTS WITH CONFIDENCE USING DECADES OF ENGINEERING EXPERTISE.

STREAMLINE EVALUATIONS ACROSS TRANSMISSION, DISTRIBUTION, AND SUBSTATIONS.

DRIVE GRID ADVANCEMENT BY ENHANCING RELIABILITY, RESILIENCY AND SAFETY.

Let's navigate the future of power infrastructure together.

EXPLORE MORE
EXPLORE ANAHEIM

Make the most of your stay by visiting www.visitanaheim.org to discover Anaheim’s many culinary, entertainment and shopping experiences.

LOCATION

The 2024 IEEE PES T&D Conference and Exposition will be located at the Anaheim Convention Center, Anaheim, California. For directions and other useful information, visit www.visitanaheim.org/meetings/anaheim-convention-center/.

REGISTRATION

Register online at ieee-d.org/registernow. To take advantage of Early Bird pricing, register by 5 April 2024.

HOTEL RESERVATIONS

We’ve partnered with Connections Housing to provide the lowest rates at over 20 major hotels in prime locations. Most of the hotels are within walking distance to the convention center. Those located further away will be serviced by complimentary shuttle buses starting Monday, 6 May, and running through Thursday, 9 May.

RESERVATIONS

Online: ieee-d.org/housing
Telephone: (470) 737-1919
Email: ieeehousing@connectionshousing.com

HOUSING ASSISTANCE

Connections Housing will be onsite should you need assistance with any of the conference hotels during your stay in Anaheim.

HOURS OF OPERATION

Monday, 5 May – Wednesday, 7 May
8:00 AM – 5:00 PM

Be sure to look for the official T&D housing logo to ensure you are receiving the best rates and service.
THE SECRET TO
UNDERGROUND
POWER TRANSMISSION

OUR WUNPEECE TRANSMISSION SPACERS REDEFINE THE INDUSTRY STANDARD FOR UNDERGROUND POWER TRANSMISSION INSTALLATIONS. WITH PRECISION ENGINEERING AND UNMATCHED QUALITY,

JOIN THE RANKS OF INDUSTRY LEADERS WHO TRUST UNDERGROUND DEVICES FOR THEIR POWER TRANSMISSION NEEDS.

VISIT WWW.UDEVICES.COM
AND EXPERIENCE THE FUTURE OF UNDERGROUND POWER INSTALLATION
SUPER SESSIONS
6 Super Sessions will bring together industry thought leaders to discuss and explore topics of particularly high interest that are vitally important to the future of the power industry.

PANEL SESSIONS
45 Panel Sessions will provide comprehensive discussions on a broad range of important trends, solution-oriented topics, and real-world applications being applied both domestically and globally.

TUTORIALS
Tutorials provide an in-depth look at topics important to power and energy professionals. Special paid registration is required and lunch is provided for all ticket holders. Separate registration and additional fees are required. Space is limited and fills up quickly.

TOURS
A diverse and exciting lineup of offsite Technical Tours gives participants the opportunity to tour and learn more about industry-related sites and products. Separate registration and additional fees are required. Spots are limited so we encourage you to sign up early!

IEEE PES PLAIN TALK ABOUT THE ELECTRIC POWER INDUSTRY
The IEEE PES Plain Talk courses are for the power industry professionals who do not have an engineering background. Attendees will come away with an increased understanding of the technical aspects of the electric power system by being provided with practical knowledge that can be applied in their day-to-day operations. Separate registration and additional fees are required.

T&D POSTER SESSION AND RECEPTION / STUDENT POSTERS
View more than 100 accepted papers, meet with the authors, and tour competing papers from the Student Poster Contest while enjoying hors d’oeuvres and beverages.

Anaheim GIS Indoor Substation (Underground Substation) 1:00 PM – 2:30 PM  2:00 PM – 3:30 PM Cost: $60

SCE Mesa Substation Tour (Air Insulated Substation) 9:00 AM – 12:00 PM Cost: $50
TECHNICAL PROGRAM
TUESDAY, 7 MAY

OPENING SESSION
8:00 AM – 9:00 AM
SPEAKERS:
Shay Bahramirad - LUMA
Joseph Svachula - ComEd
Erik Takayesu - IEEE EAC Member

SUPER SESSION
SS01
Mind the Gap – Policy and Regulation for Accelerating the Grid of Tomorrow
9:00 AM – 10:00 AM
This panel session brings together experts and policymakers to analyze current policies concerning climate change. Specifically focusing on the electric sector, transportation, and buildings, the discussion will identify gaps inhibiting the achievement of greenhouse gas reduction goals. The session seeks to define actionable steps to accelerate a sustainable, decarbonized future and drive meaningful policy reform.

SPEAKERS:
Shay Bahramirad - LUMA

PANEL SESSIONS
PN01
Testing DERMS and DER Aggregators Towards Successful Implementation – Challenges and Opportunities
1:00 PM – 3:00 PM

PN02
Augmenting Traditional Utility P&C Approach With AI/ML for Solving Challenges for the Grid of the Future
1:00 PM – 3:00 PM

PN03
Wildfire Mitigation for Electrical Power Systems
1:00 PM – 3:00 PM

PN04
3 AM Topics That Keep Our Executives Awake – A Multi-Utility / Multi-Disciplinary Perspective
1:00 PM – 3:00 PM

PN05
Updates on FERC Order 881 and AAR/DLR Implementation
1:00 PM – 3:00 PM

PN06
IEEE PES YP Panel - The Grid of the Future: Opportunities and Challenges
1:00 PM – 3:00 PM

PN07
Integrated Planning for Modern and Future Distribution Systems
1:00 PM – 3:00 PM
**PN08**  
Impacts of Electric Vehicle Charging on Distribution and Transmission System Reliability  
1:00 PM – 3:00 PM

**PN09**  
VSC & Grid Stabilization Technologies  
1:00 PM – 3:00 PM

**PN10**  
Transforming T&D Planning and Operations for Accelerated Decarbonization and Enhanced Resilience  
3:00 PM – 5:00 PM

**PN11**  
Inverter Based Resource (IBRs) Interconnection and Penetration Issues  
3:00 PM – 5:00 PM

**PN12**  
Future of Distribution Planning Studies with DER Aggregation due to FERC 2222 and Impact on Transmission Studies  
3:00 PM – 5:00 PM

**PN13**  
Communication and Control of Storage – The Enabling Capabilities  
3:00 PM – 5:00 PM

**PN14**  
Empowering Cooperative Utilities Through Distribution Automation for a Resilient Energy Future  
3:00 PM – 5:00 PM

**PN15**  
HVDC Transmission and FACTS Fundamentals  
3:00 PM – 5:00 PM

**PN16**  
Investigation of Stray and Contact Voltage Using IEEE 1695  
3:00 PM – 5:00 PM

**PN17**  
Recent Industry Experiences in Grid Modernization – Building the Grid of the Future  
3:00 PM – 5:00 PM

**PN18**  
Substation Digitization: A True Digital Twin for Substations and How to Get There  
3:00 PM – 5:00 PM

---

**IEEE PES PLAIN TALK ABOUT THE ELECTRIC POWER INDUSTRY**  
Distribution System – Delivering Power to the Customer  
8:00 AM – 5:00 PM

**TECHNICAL TOURS**  
Port of Long Beach  
11:00 AM – 2:00 PM  
Cost: $85
SUPER SESSION

SS02
Transmission Buildout – The Solutions We Have and the Breakthroughs We Need
8:00 AM – 9:00 AM
The next 10-20 years will witness an unprecedented expansion of transmission infrastructure to support new energy resources. This panel session will address the challenges in creating a transmission system fit for clean energy, emphasizing the importance of proactive planning, upgrades to existing infrastructure, and the integration of grid-enhancing technologies. The session aims to pave the way for a cost-effective, sustainable energy future.

SPEAKERS:
Pat Wood - Hunt Energy
Elaina Ball - CPS Energy

SS03
Meeting the Energy Needs of Tomorrow – Integrated Planning for the Customers, Distributed Energy Resources, and the Grid
9:00 AM – 10:00 AM
In this session, the brightest minds in energy will explore the intricacies of integrated planning for tomorrow’s energy ecosystem. Discussions will spotlight challenges and opportunities in harmonizing customer needs, grid evolution, and the rise of distributed energy resources (DERs). The session aims to outline strategies that bridge the gap between decentralized energy sources and traditional grid frameworks, charting a roadmap for a sustainable energy future.

SPEAKERS:
Damir Novosel - Quanta Technology
Elaina Ball - CPS Energy
Gabriel Bareux - RTE
Kevin Geraghty - SDG&E
Raiford Smith - AES

PANEL SESSIONS

PN19
Long-Duration Energy Storage: Navigating the Path to a Decarbonized Grid
1:00 PM – 3:00 PM

PN20
Leveraging Big Data to Improve Distribution Grid Modeling and Operation
1:00 PM – 3:00 PM

PN21
Climate-Driven Disturbances in the Western Interconnection: Challenges and Adaptation Solutions
1:00 PM – 3:00 PM

PN22
Improving Protection of Low-Voltage Networks with High DER
1:00 PM – 3:00 PM

PN23
Intelligent Grid Edge Voltage Control for Voltage Optimization and Ancillary Benefits
1:00 PM – 3:00 PM

PN24
Behind-the-Meter Assets: Path Towards Increased Visibility and Controllability
1:00 PM – 3:00 PM

PN25
Making the Decision to Invest in Major Underground Programs
1:00 PM – 3:00 PM

PN26
Cape Cod Microgrid: A Blueprint for Utility Scale Microgrid Implementation
1:00 PM – 3:00 PM

Transmission System: The Interconnected Bulk Electric System
8:00 AM – 5:00 PM

**TECHNICAL TOURS**
Irwindale – Energy Education Center and Emergency Operations Center
10:00 AM – 1:00 PM
Cost: $25
SUPER SESSION

SS04
Powering Progress: Overcoming Obstacles Towards the Energy Transition
8:00 AM – 9:00 AM
This panel gathers leaders to address complex challenges in the quest for a sustainable energy future. Discussions will highlight strategies for resilience in the face of supply chain disruptions and the need for upskilling and diversifying the workforce to meet evolving demands. Moreover, insights into cutting-edge grid technologies will be shared, emphasizing their role in integrating renewables and enhancing grid resilience. The session aims to foster innovation and collaboration, paving the way for progress in the energy transition journey.

SPEAKERS:
Joseph Svachula - ComEd
Duke Austin - Quanta Services
Marcus McCarthy - Siemens Germany
Andre Begosso - Kearney

SS05
Spark of Innovation: Exploring Decarbonization from Electrification
9:00 AM – 10:00 AM
During this session, energy innovators will outline the roadmap for achieving a decarbonized economy by 2045 through widespread electrification and grid expansion. Discussions will revolve around adopting zero-emission technologies in vehicles and buildings and emphasizing the actionable steps necessary for carbon neutrality. The session aims to harmonize policy, infrastructure, investment, and innovation to propel us toward a sustainable, electrified economy.

SPEAKERS:
Sue Tierney - Analysis Group
Matt Peterson - Los Angeles Cleantech Incubator
Peter Fox-Penner - Energy Impact Partners
Ann Rondeau - Naval Postgraduate School
Marianna Vaiman - V&R Energy Systems

SS06
Climate Change Impacts on the Grid of Tomorrow
3:00 PM – 4:00 PM
This panel brings together experts to explore how climate change is reshaping our energy landscape and the urgent need to bolster grid resilience. Discussions will underscore the necessity of investing in climate adaptation, emphasizing the stark contrast between present costs and the potentially exorbitant toll of inaction. The session aims to foster collaboration among industries and communities for a resilient, equitable, and sustainable energy future.

SPEAKERS:
Wayne Bishop - Quanta Technology
Michael Pesin - U.S. DOE
Catherine Stempien - Avangrid
Ken Seiler - PJM
Steve Edwell - Economic Regulation Authority, Perth, AU
PANEL SESSIONS

PN37
Opportunities and Challenges of Grid Modernization
1:00 PM – 3:00 PM

PN38
Data Orchestration and Autonomous Restoration to Enhance Community Resilience
1:00 PM – 3:00 PM

PN39
Hydrogen’s Role in the New Green Ecosystem and Its Interactions with the Electric Power System — Utility and Developer Perspectives
1:00 PM – 3:00 PM

PN40
Cyber-Physical Situational Awareness Challenges and Opportunities in a Modern Smart Grid
1:00 PM – 3:00 PM

PN41
Expanding Asset Management Awareness to Enhance Grid Resiliency
1:00 PM – 3:00 PM

PN42
Unlocking the Flexibility of Supply and Demand Side for a Future Decarbonized Grid
1:00 PM – 3:00 PM

PN43
Empowering the Future of Electric Vehicle Adoption Through Grid Enhancing Technology
1:00 PM – 3:00 PM

PN44
Distribution Resiliency Metrics – An Update on Resiliency Metrics Development and an Overview of Resiliency Industry Research
1:00 PM – 3:00 PM

PN45
Grounding & IEEE 80 — What’s Under Your Next Project?
1:00 PM – 3:00 PM

TECHNICAL TOURS

Center Peaker to see one of the “World’s First Low-Emission Hybrid Battery Storage, Gas Turbine Peaker System”
10:00 AM – 12:00 PM
Cost: $25

Reliability Utility Owned Energy System – Hinson Substation
1:00 PM – 3:00 PM
Cost: $25
